**Solution**

The clock marks the hours. The movable wall hinged to the center of the small apartment organize space according to use and necessity.

In your life you need more working space or more space and more possibilities to relax?

In your house you need more space for living room to accommodate many friend around a table drinking a good glass of red wine, or you need more space to sleep in a very comfortable bed?

**The movable wall moves like clock hands to offer, to arrange, to add, to remove and to divide the space.**

The blocking of services: cupboards, bathroom and kitchen, opening onto the courtyard, while the area devoted to work, at night and the hospitality it gravitates around the movable wall. Both

spaces are organized according to the standard and Italian style with refined furnishings and innovative.
