

1/2 Don't judge people according to their appearance

Experimental typography from the parts of my body

Solution

DON'T JUDGE PEOPLE ACCORDING TO THEIR APPEARANCE

This series of picture was created for a experimental typography course. It was also created for a Stefan Sagmeister site Things I have learned in my life so far.com. My friend Martin photographed a part of my body and I did the rest in photoshop. I really hate the excessive human self-conceit, when somebody judges people just according to their appearance. And often these people don't achieve anything special, They just talk smart. Fuck them.
