

1/2 **300 possibilities**

Homeless people and poverty are everywhere but some countries are the most affected. The design of these houses lies in the features of each site, I believe a strong adaptation strategy can help the \$300 project reach the goal.

| | LOCATION | CLIMATE | VULNERABILITY | PRINCIPAL ECONOMIC ACTIVITIES | DENSITY AND URBANIZATION | | | Visual Solution |
|----------|---|--|---|--|---|--|------------------------------|-----------------|
| | | | | | RURAL | RURAL GOING URBAN | URBAN | |
| 1 | Caribbean | Tropical, tropical storms cyclone | massive deforestation soil erosion earthquakes, tropical storms flood events, hurricanes tropical cyclones | subsistence agriculture export agriculture | | HAITI | | |
| 2 | Sub-Saharan Africa | Dry and hot, almost no rainfall | desertification soil erosion droughts flooding rivers epidemic | subsistence agriculture export agriculture mining livestock | MALI NIGER CHAD | BURKINA FASO | | |
| 3 | Eastern and Western Africa | Tropical rainforest, jungle, hot and humid | sea level rising salt water intrusion, thunderstorms, high precipitation harmattan | subsistence agriculture export agriculture fishing livestock mining regional trade | GUINEA GUINEA-BISSAU LIBERIA EAST TIMOR | NIGERIA BENIN CENTRAL AFRICAN REP. | D.REP. OF THE CONGO CONGO | |
| 4 | Eastern Africa | Temperate, moderate rains Marshy Areas | landslides overpopulation epidemic | subsistence agriculture export agriculture livestock mining oil | UGANDA RWANDA * BURUNDI * | | | |
| 5 | South Asia | Hot and Humid Monsoon | flood events, tropical cyclones, tornadoes, tidal bores overpopulation, soil degradation and erosion, deforestation | subsistence agriculture export agriculture metallurgy mining, textile industry fishing farming service sector | BANGLADESH * CAMBODIA LAOS | INDIA | | |
| 6 | Southern Africa Central Asia | Desert sand storms | Lack of water, droughts, floods epidemic, extreme temperature | subsistence agriculture export agriculture mining | NAMIBIA | UZBEKISTAN | | |
| 7 | Southern Africa Central and South Asia | Variable according to location | deforestation, soil erosion and degradation, tropical storms, floods, landslides, extreme temperature | subsistence agriculture export agriculture metallurgy service sector, mining tourism | NEPAL TANZANIA TAJIKISTAN MADAGASCAR MALAWI MOZAMBIQUE | BHUTAN ZAMBIA | ANGOLA | |
