

## 1/2 SIGHT

The innovative balcony furniture SIGHT was designed as a retreat from the sun, noise and prying eyes. A window focuses attention on the bright side of the city.

### Solution

The innovative balcony furniture SIGHT was designed as a retreat from the sun, noise and prying eyes. A window focuses attention on the bright side of the city. During the day it could be a green area in the vicinity. At the evening it could be a high standing moon in the sky. Trough gently lifting you get SIGHT into the desired position.

The main body consists of a coarse-mesh plastic netting. This is supported by a stainless steel base. Inside there is seating cushion that adapts through his section. In addition, there are cushions to offer more comfort. The seat cushions and pillows are covered with a weather-resistant fabric. SIGHT can be transported readily and get through the door on the balcony because it consists of several parts.
