

1/2 **Make a friend**

Make a friend, find a soulmate! In a gallery of hundres of images, who is the ONE person whose favorite is the same as yours?

Solution

In the gallery space, hundreds and hundreds of images are hung... they are prints, illustrations, photographs, little artworks of all styles... there is a huge selection, but each image is double!

Every visitor gets to chose one image to take home. On the back of the image there's a code. You are asked to enter your code on a website. There you will find the other person who chose the exact same image. You can instantly connect, through your social media channel of choice.

It's a nice way to make a new friend, right?
