### Solution

In the future Penny as well!

We are in the year 2135.

Technology dominates the cityscape: Flying cars populate the sky, screens are everywhere and aliens are living in peace with human beings.

Suddenly a timelock opens and two scientist are tumble through it. After picking oneself up they look around with curiosity.

One of them ask the other: "And now?"

The other: "First to Penny!"

A voice over: "Penny has the right dishes for each saucer!"

The PENNY Plot.
