TUBES ARE MECHANICALLY ATTACHED AND CAN BE MOVED TO A SPECIFIC DIRECTION

Solution

RESTAURANT DESIGN
EAT-MEET-TALK-RELAX-TIME
MANY WORDS CAN EXPRESS THE FEELING OF A RESTAURANT/ WHY DO WE GO TO RESTAURANTS/ IN FACT, THE GOAL IS TO ANSWER THIS QUESTION THROUGH INTERIOR DESIGN/ HOW CAN SPACE BE ARRANGED TO MEET A SPECIFIC TIME DURING THE DAY WHEN WE COME TO THIS RESTAURANT///
The concept consists of using movable shafts to create a multitude of space within the restaurant.

The restaurant can be arranged for morning, afternoon or evening to sustain the number of customers and its visual appreciation. I wanted to give a certain approach to Privacy. Depending on what the customer is looking for (for example), he can ask for a more private space, which will be arranged easily just by moving the shafts. For breakfast, for example,

not a lot of persons are looking for privacy. However, when it comes to dinner, some people will prefer a
