

1/2 **the gateway**

clean, white and simple ideas.

the winning platform.

Protecting your data in the most complicating and testing conditions of cloud computing.

ISR G2
Integrated Services Router

The ISR G2 (Integrated Services Router - Second Generation) is one of Cisco's leading router products. End users for the ISR G2 are typically Enterprise IT organizations - from large scale Fortune 500 companies to small/medium businesses.

Solution

the ideas was to make it simple and specific. the 3 points of marketing are taken care of directly. keeping it very basic and simple to understand.

In a Network State of Mind

2/2

the gateway

clean, white and simple ideas.
