

1/2 **And there will be mood!**

Restaurant Transformer - Modular System for Marriott

Solution

- All modules can easily change their look and feel and will change the mood of their surroundings
- The modules can be used for breakfast, lunch, dinner and all other sitting activities
- By doing easy but effective changes, they could also be used as (separated) lounge or meeting spaces
- These changes will be realized with less effort by rotating the main modul, turning the seating area and rotating the table/wall parts. The modules will be fixed on the floor, a fixation on the top of the room is possible aswell
- The whole module is covered by a LED luminated cover / outer shell. The lumination will be changed by an easy to handle programming and so create any colour fitting to a theme
