

1/2 **night & day**

A magical "SITONCLOUD" table plays a core role to transform the whole restaurant from day to night.

**Solution**

At day time, the tables under the sunlight, look like a sculpture inspired by natural landscape. Seats can be easily divided by real indoor plants to make the whole restaurant a beautiful garden. At night, the tables are lighted by LED projector above. The moving images floating on the undulating form of the table, change the the whole restaurant into a fantasy world. Guests seats are easily differentiated by the variety images which the client ordered for their present mood.
