

1/2 **lotus collector**

The idea consists in using a collector in lotus leaf's form to get water and then to water plants.

3-3 To water the plant

Solution

The idea consists in using a collector in lotus leaf's form to get water and then to water plants. The screwed connector is adapting to different shapes of the bottles.

2/2

lotus collector

The idea consists in using a collector in lotus leaf's form to get water and then to water plants.
