hot points

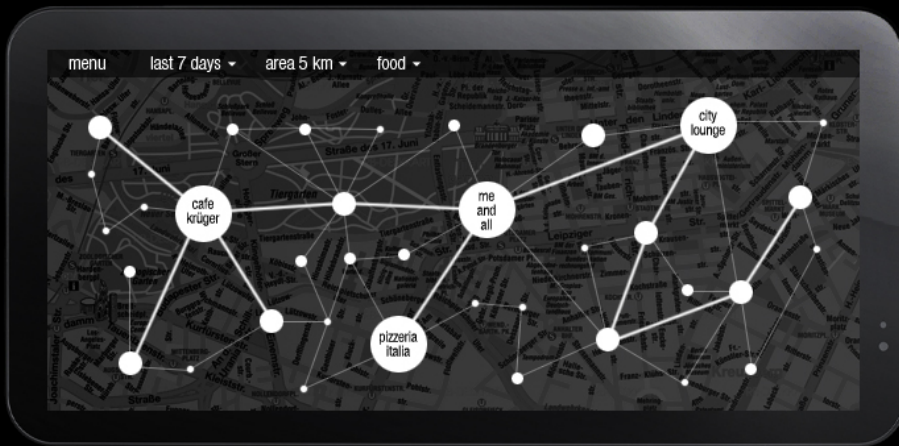

innovation

The "hot points" of "me and all" is a fully automated scoring system, which is influenced only by the pure residence time at a particular place and requires no further input.

By the prior application of a city map database, the "hot points" in different categories, as assigned, for example, entertainment, shopping or eating.

Each hotel visitors will benefit from all the other hotel guests of "me and all."

Solution

The innovative GPS scoring system with benefits for the guests and all the city shops.

Connecting me with all
