

1/2 **coolcoke**

Coke must be cold! This box can be connected to a water hose.

Solution

Sun, heat a barbecue and now a cold Coke under the umbrella ... This box is stacked on a table, which can be cooled with water. The boxes have a rotating lid, which allows the access to every level even when more boxes are stacked. Because it´s possible to roll the box it is also easy to transport. The bottles are fixed safely between the floor and the hanging rails.
