Solution

Mitosis (mitosis = the growth of cells) is a set of 7 hexagonal elements.

One has a hard plastic plate and can be used as table and the 6 others are made of neoprene & filled with foam, are soft (bend-and rollable) and can be used as sitting areas. The single elements are connected with "velcro" strips With more sets this picnic-area can be expanded to infinite scale and every combination.

a growing hang-out-zone
