

1/7 **the lunch box**

A fun and simple way to have lunch outside. If you vote please write a comment :)

Solution

This modular system will make eating outside a fun, comfortable and unique experience. Modular panels are assembled to protect the occupants from wind, sun and rain.

This flexible lunch box is convient for groups of 2 to 4 people. Offering the possibility of having a lunch break sitting down or a quick snack on the counter. Folding panels are used to create the 4 people lunch box. A 2 people lunch box is also available using only one foldable panel for the back of the box. Making it even easier to carry around and enjoy a lovely dinner outside.
