

1/2 COCO _event furniture

the outside dining room - a modular system for each event

ESP design

Solution

COCOevent furniture is a modular and flexible object system events outside.

A romantic dinner for two, the small family celebration in the own garden, the bar on the beach or the Open air event, no matter what size, COCOevent furniture makes it possible.

The single modules are reducible in manageable sizes and therefore especially suitable for the private area. According to weather relation or solar state solar- and weather protection can be pushed in position between the modules (the textile is made of sail cloth - Ripstop).

Fitting-out of the modules are flexible:

*DININGmodule
a romantic dinner for two, the*

family celebration in the Green or the Open air event... the modules can be combined with no limit
