Solution

PASSING THROUGH

A social living hotel is a place, for me, where visitors and citizens can be together. To obtain this goal the structure should have many attractive functions.

You can socialize in a better way if the hotel users are of different ages, nationalities and type.

Change is vital.

The façade of the hotel is translucent, transparent during the day and luminous at night.

The activities I detected, on the ground floor:

- Cafè
- Bar
- Bookshop
- Organic Market
- Jogging Path

Upper floors:

- Travel Live Forum
- Community kitchen
- Rental Spaces
- Gymnasium
- Apartments
