Bamboo is perfect for garden furniture -
There is a rapidly renewable resource -
it is planted environmentally in sustainable plantations -
so we have a very good eco balance sheet -
bamboo is a very hard and very resistant material,
and also good to use for outdoor use -
bamboo is available in sheets and can therefore be handled very well for garden furniture and the production of them -

The design of my bamboo garden furniture fits neatly on any terrace and garden. It is smooth and is the natural forms of nature are adapted to the garden.
