

1/7 **Mangrove Modular**

this design is ideal for day & night setting. it is suitable for resort, beach and grasslands picnic

**Solution**

Mangrove Modular is made of PVC or hard plastic materials fabricated to look like natural mangrove wood. The word modular describes its modular assembly to create one structure. One module is in handy size for easy assemble and transport. The creation of one complete package of dining & kitchen create also a form of design wonders that matches the environment around. Its see-through design is an answer to ventilation problem. It is very useful during sunny, rainy and nighttime giving protection to dining friends and families. The floor itself is a foot SPA experience that promotes total body healing w/c is popular in the east. Overall it is an experience indeed.

Mangrove Modular

this design is ideal for day & night setting. it is suitable for resort, beach and grasslands picnic

What's the benefit for the target group?

Mangrove modular is comfort, health promoting, relaxing and time managing both your culinary and health activities at one time

3/7

Mangrove Modular

this design is ideal for day & night setting. it is suitable for resort, beach and grasslands picnic

How does your idea solve the problem?

since the structure looks very natural, it fits the environment. its very light and airy. It is very innovative and creative. Its character of being modular makes it easy to transport in a well designed roller suitcase or box. It is very easy to assemble because of its handy size. Its a food, cooking and spa in one. its like going back to our roots by using it in a new world.

4/7

Mangrove Modular

this design is ideal for day & night setting. it is suitable for resort, beach and grasslands picnic

What could be the perfect event to implement your approach/object?

Sun bathing, beach resort sight-seeing & relaxing, swimming pool accents, picnic and dining during sunny, rainy and nighttime in grasslands, forest park and outback.

5/7

Mangrove Modular

this design is ideal for day & night setting. it is suitable for resort, beach and grasslands picnic

Which problem is solved by this idea?

The feeling of being in a very urban world using steel and synthetic materials. The world is too urbanize that most stores are selling the same product design. The problem transporting and time of assembly. The problem of time management to do dining and foot spa.
