

1/2 **Renewables**

(UPDATED 21.03.13) Renewable based patterns that harmonize with all!

Solution

Renewables is an idea based around energies that are natural in our surroundings. The idea in my work is about breaking down some of these renewable energies into basic shapes and building a "constant" pattern similar in a way that nature builds patterns or "constants". By using more natural earth like tones the patterns are therefore more in tune with our surroundings and in harmony with people.
