

1/2 Twisted Night

Twisted Night

Solution

In Search of for authentic design, bounds and norms have to be overstepped that are valid when creating a new package.

This design seeks his character features by breaking symmetrical form ,violation of the rules of graphic design and by disregarding anything that would superficially and generally

be used for the basis of design for vodka bottles.As a result of this movement, product is a created.Which by the aggressive and striking way jumps out of the sea of similar products.

Its straight lines and strong tonality honestly provokes ,and speak clearly about style ,quality,distinctiveness,witch causes a desire for transcendence.
