

## 1/2 Flexible/Portable Solarpanels

### Flexible/Portable Solarpanels

# Flexible Solarpanels and Electric-Pump

#### Solution

Flexible/Portable Solarpanels and electric water-pumps

Portable solar panels positioned trapezoidal in shape and halcircular positioned - enough to power a low-cost electric water pump

The advantages are obvious - low cost - Portable - higher effectivity than conventional solar panels - Solar panels are trapezoidal in shape and foldable  
If larger pumps must be operated simply more solar panels are connected to each other.

The idea is easy in use - Easy to transport - Easy in maintenance - Easy to install and most of all this is a real LOW-COST idea for the people not only in India.

More details and updates to come.
