

1/5 **Handle barsket**

A hybrid between handlebars and a medium sized basket, made with the wire forming process.

Visual Solution

## Handle barsket

A hybrid between handlebars and a medium sized basket, made with the wire forming process.

What was the task for the work you show here?

Part of a product series that explores the possibilities of wire forming for innovative bike related products. Another one from the series: <https://jovoto-portfolio-awards-2015.jovoto.com/ideas/43352>

3/5

## Handle barsket

A hybrid between handlebars and a medium sized basket, made with the wire forming process.

What was your unique idea?

This was designed with very simple and uncluttered urban bikes in mind. A clean alternative to add-on baskets. To store items that are good to have in direct sight and reach for practical and security reasons.

4/5

## Handle barsket

A hybrid between handlebars and a medium sized basket, made with the wire forming process.

Is the work you present here originally and genuine made by you?

Yes.
