Assemblies of techniques get involved with summer colors, flowers, leaves and contemporary lines.

Solution

This is my vision of an artificial garden. Artificial is something made by man. But I don't want to be literal. For me, the artificial part is represented in the colors and the assembly of techniques (photo, illustration, painting and collage). The flowers are all inspired in my garden. The lines play with the delicious mess I made with the flowers and give to the pattern a contemporary look.
