Mystical night flowers

Solution

Night flower is a pattern inspired by the almost unrecognizable and distorted shapes a flower has at night. We don't see them clear, they can be soft and beautiful and also sharp shaped and mystical, either way their appearance doesn't leave us indifferent.

Why does your design stand out?

The design is a different interpretation of flower patterns. Created by our imagination by looking at something we can't see clear, the shapes we get are unique and different.
