Why does your design stand out?

I think my design is full of pulsing energy, just like the nature around us. I live in a very big city, with less plants, but more building and i really miss the freshness and the colours of a huge garden. So i think my patterns can bring back the feeling of it.

Which kind of brands do you imagine using your design?

I can imagine my design in any type of textil. I made it especially for fashion clothes, but i see now that it can work as bedding textile design, or as special collection of lingerie, and swimwear.
