

1/6 The Neverending Story

We all are writing our own stories ourselves, dreams to be fulfilled..

Solution

When we are born the pages of our own book is empty. While getting older we will start writing our own book, our own story. It is up to us how the story goes on and on.. Don't be afraid to take your destiny in your own hand, to dream big, to fulfill your dreams... Stand up and be the author of your own book :)

The Neverending Story

We all are writing our own stories ourselves, dreams to be fulfilled..

What is the story behind your design?

We are the ones who are writing our own book, to alter our own life for the better.. At the beginning the pages of the book are empty, it is up to us how to fill it with joy and happiness. The same is true for Victorinox, it gives us a lot of possibilities how and where to use it, there is no limit but our imagination.

The Neverending Story

We all are writing our own stories ourselves, dreams to be fulfilled..

Is there a connection between your design and the Victorinox brand?

Yes, you should never give up your dreams, take your chance and alter your own story. The possibilities are endless, you just have to keep reaching after them..

Please make sure you have filled out your country of origin in your profile! It's important that the regional Victorinox team understands the cultural background of your design.

Done!

Have you used any third-party material? Even if you've modified or combined it, please know that in this project no stock is accepted. See "mandatory requirements" (in the Brief) for details.

No, I did not use any 3rd party material. It has been done / drawn first on paper, later it has been digitized and elaborated further in Illustrator and the final steps in Photoshop..
