

# 1/6 Crystallized stripes

The irregular regularity of crystals applied to a striped pattern.

ANA LINEA

## Solution

I love geometry. I like stripes as they usually are, but looking for another point of view, I decided to crystallize them, making the normal lines more interesting and lively, but still geometric.

The irregular regularity of crystals applied to a striped pattern.

Why does your design stand out?

It reminds the classic nautical striped Breton, but in an informal way. Lines are not vertical, not totally horizontal.

Which kind of brands do you imagine using your design?

Young and quality brands such as U (Adolfo Dominguez).

4/6

## Crystallized stripes

The irregular regularity of crystals applied to a striped pattern.

How big is the repeat in your pattern? Keep in mind that it should be at least 64 cm.

It's a vector file so it can be resized to any scale. It can be a rotation print design because it has less than 10 colors and it can be sized to 64cms.
