

## 1/6 Zebra crossing

A combination of zebra crossings and zebra animals.

### Solution

The design works in black and white colors but, the colours can be changed as well. The design was made up as a vector-file in Adobe Illustrator, which means that any changes in size and/or color of the stripes are easy to implement.

Why does your design stand out?

It stands out because of its originality and wordplay that reflects the double meaning of the word. What can be more striped than the zebras on the zebra?
