

We care for the caregiver.

## 1/6 Implementing caregiver friendly legislation

Making it possible for caregivers to be considered medical workers everywhere in the world.

**Step2: Help the implementation and fair, good working of this system:** With the new legislation adopted, people could volunteer, or even be paid to implement the new caregiving system, maybe a caregiver certification system also implemented, a internet-based central caregiving website, with monitoring of how well the caregivers do their job, a rating system, a special card for spending on medication and other sanitary and medical materials, as well as the possibility of changing the caregiver whenever the ill wants.

### Solution

My idea is implementing legislation that would allow a caregiver to receive monthly pay just like the ill person was taken care of by a nurse from public money, in a hospital.

We care for the caregiver.

## Implementing caregiver friendly legislation

Making it possible for caregivers to be considered medical workers everywhere in the world.

Describe a caregiver situation that you were/are involved in.

My grandma (from dad's side) had been paralyzed in the last ~5 years of her life from the neck down, and we, as her family members took care of her, meaning we washed her, fed her, encourage her to stay positive, and so on and so forth.

We care for the caregiver.

Making it possible for caregivers to be considered medical workers everywhere in the world.

Explain the caregiver problem that resulted for you and/or other caregiver(s).

The problem was that we as caregivers haven't received any financial support from the government, even though we could have sent my grandmother to a public asylum, where she would have been nursed on public money by the state. Therefore, we had to struggle with the money in order to take care of our family member.

We care for the caregiver.

## Implementing caregiver friendly legislation

Making it possible for caregivers to be considered medical workers everywhere in the world.

Describe your caregiver solution that would provide assistance or relief to the problem of the caregiver.

My solution is the implementation of laws, through organizations, independent activists, petitions and other means of this kind, that would make it possible for the caregiver to be paid a salary and a sum of money for the expenses of nursing the ill one.

We care for the caregiver.
