

We care for the caregiver.

## 1/6 Caregiver's Bible/Manual

Teva will use my idea to issue a booklet called "The caregiver's Bible".

**Update**

The manual will be offered on a separate page of the main Teva website, the page offering many other very useful features such as:

- Caregiver's Profile (based on which the individual takes a quiz and tests and can check his progress over time)
- Caregiver's shop with items ranging from t-shirts and coffee mugs to practical devices such as heartbeat monitors and other medical devices
- Live online support from professionals
- A forum where caregivers and the suffering can share their stories, discuss, help and teach each others
- Lots of tutorials, cheering and reassuring audiovisual content
- Testimonials from people Teva has helped over the years
- Monthly additions and improvements to the book (Caregiver's Manual)

### Solution

The booklet will be available online for free (as a PDF) or for purchase (of the print version), containing lots of practical information like advice, tips, psychological guidance for both the caregiver and the one receiving care.

We care for the caregiver.
