Solution

Where do you see yourself in five years? Hopefully not stuck in a rut. "Where do you see yourself in five years?" One of the most common questions we get in a job interview. I can see myself evolving throughout the ranks, I can see myself rafting around the world or travelling to the moon and back. I love to dream, maybe too much, but thanks to those dreams our lives have a purpose.

Activated by wearables, the platform is here to empower every employee in their search for an unstuckable workplace.

Using the data, employers can assign employees new tasks, give them vacation, change their work schedule, discover new hires, with the exchange program (in case all the requirements are checked, organize sport days etc. Using the data, employees, can team up with

their colleagues from other offices, help them when feeling stuck, work on a project, run a business, etc.

Project: Stuck in a Rut

Where do you see yourself in five years? Hopefully not stuck in a rut.

Describe your idea in less than three sentences.

A wearable's activated platform for every employee, but with a touch on the ones who fill like being stuck in a rut and are in search for a change of scenery or just want to discover a new challenge.
