

1/8 **Borealis (second update)**

Aurora Borealis light

Solution

The myths comes from Finland where it was held that the lights were caused by the firefox who ran so quickly across the snow that his tail caused sparks to fly into the night sky creating the Aurora. Indeed, the Finnish word for the Northern Lights “revontulet” translates literally as “fire fox”. Another belief held by the Sámi people of Finnish Lapland amongst others, was that the lights were created from the spume of water ejected from whales.

Did you use images, graphics, fonts etc – not originally created by you? Did you get very closely inspired from a source? That's fine as long as you share that source-links.
