The Icy Souls

The lives of icy regions.

What is the mystical story behind your design?

In the deepest icy world, we don't know what kind of creatures are still there. Thus, I hide those creatures in the back of main label. They represent the great souls of the mystical ice world.

Did you use images, graphics, fonts etc – not originally created by you? Did you get very closely inspired from a source? That's fine as long as you share that source-links.
