The Celtic tree of Life is the link between heaven and earth.

Solution

Trees were an important aspect of Celtic Culture. They provided shelter and food, and warmth through fire wood. The Druids would hold their classes and meetings under the trees and, when clearing a settlement, the ancient Celts would always leave a tree standing in the centre.

What is the mystical story behind your design?

Spiritually, the Celts believed that trees were the ancestors of man and had a connection to the other world. The most sacred of trees was the oak, or 'daur' in Celtic, which is where we get the modern word 'door'. So the oak tree, literally would have been the door to the other world.

Did you use images, graphics, fonts etc – not originally created by you? Did you get very closely inspired from a source? That's fine as long as you share that source-links.

I was inspired by the image of Celtic mythology <http://www.thisblogrules.com/tag/japanese-symbols-and-meanings>
