

1/2 **Dirt Scanner & Smart Cleaner**

A hand scanner that makes a fast cleaning in your clothes giving them a second chance before wash.

Solution

We all have some clothes that are "too dirty to use but too clean yet to wash". Clothes with little stains or sweat, even some smoke bad odor that could be removed in a simple way, wasting less water and energy. Meet the Dirt Scanner & Smart Cleaner: A hand scanner that makes a fast cleaning in your clothes giving them a second chance before wash.

Dirt Scanner & Smart Cleaner

Laundry Experience:

We all have some clothes that are "too dirty to use but too clean yet to wash". Clothes with little stains or sweat, even some smoke bad odor that could be removed in a simple way, wasting less water and energy.

Solution:

A hand scanner that makes a fast cleaning in your clothes giving them a second chance before wash. It can remove simple stains, odor, sweat or have an antibacterial function.

Process Step:

Which part(s) of the wash-cycle-process are you improving?

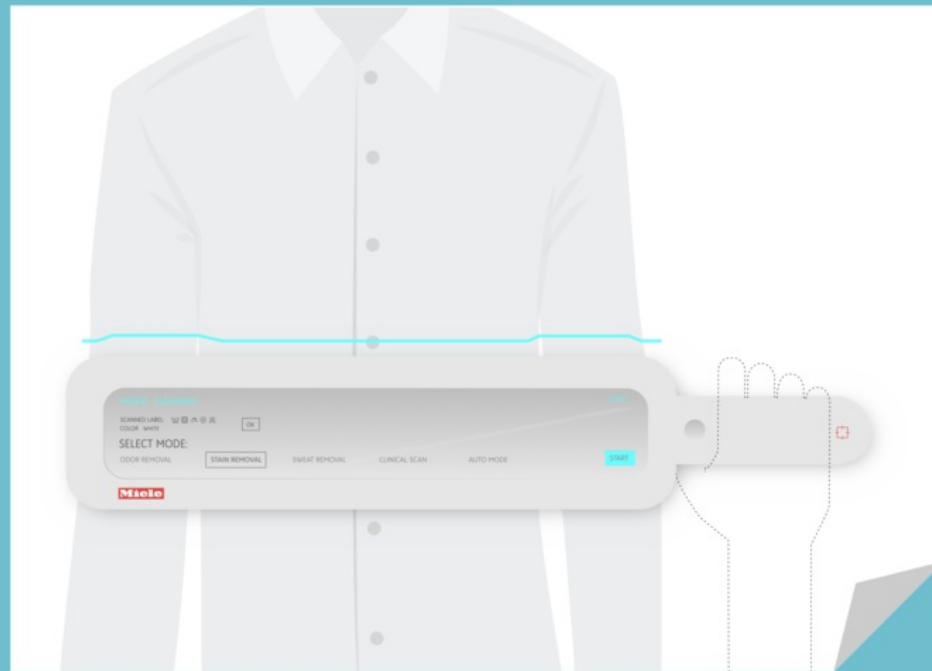

from sort & transport

to dry
