**Solution**

A good washing machine or dryer is quite an investment. It's used at best for 1-2 hours per day, often much less. Sometimes you just have a few items needing to be washed and it would be a waste of resources to run a half full machine. So why not give people the opportunity to put their laundry into your washing machine or dryer and earn a little extra money by that way. The PICO-app brings people together. It helps you to find the right laundry-partner.
