

1/2 **Message**

YOUR PERSONAL DATA IS YOUR ASSET AS WELL, SAVE IT  
**BE ALERT, BE SURE, BE SECURED**

**Solution**

I would give a message through this designed postcard to all to be alert and safe by self for your data privacy. The initiative by the Greens is appreciable but the problem is global, electronics data feeding, sharing or showing is become part of our routine life in last couple of years. It is difficult to predict how far technology will go and bring more such problems, National and international laws can be helpful up to some extent but by enlarge you have to aware for your civic rights.

So you're the best watch-guard for your personal data and its privacy.
