

1/2 Smart Home Game- BUILD UP RESPONSIBLE AND ACTIVE KIDS- UPDATE

SH Game is a mobile game that will change completely the idea about what means doing laundry, today.

Solution

The Smart Home Game is a multi-level connectivity game that sync with the washing machine- during the laundry time, educate users about washing, sustainability, keeps them active - challenge them with real-life with household chores activities (timed), track their moves, offer points rewards also can be social engage with the community. (All this doing laundry).

One of the biggest advantages of Smart Home Game is that is working even in the smallest places and compare with other innovations, has a lot of benefits in the long term beyond a practical way to do laundry. Also makes people engage and enjoy the process.

The game is connected with the washing machine, and use the wash setting and transform them into "sustainability bonus" points bases on (timer, temperature, natural products/bleach etc). A sustainable way to wash means more points -
