This design shows the pink beach of Harbour Island, Bahamas.

**Solution**

Fine shells and coral particles have given the dreamlike, milelong beaches a pink touch. We chose a tonal and minimalist design that is proper for the size of the knife. The color combination of pink and blue gives the knife a high recognition value and looks very friendly, pleasant and modern. Due to the unusual perspective view on the front, an interesting look is created

Describe why you have chosen this place as a visual? What story does your design tell?

You can find the pink beach on "Harbour Island" and everyone should have seen this pink beach once in a lifetime. Fine shells and coral particles have given the dreamlike, milelong beaches a pink touch. The island is off the beaten track, so mass tourism has not been lost yet.
