

# 1/7 Budapest, Hungary

Fisherman's Bastion and Hungarian traditional folk motif illustrations like mechanical drawings.

**VICTORINOX**  
Budapest

**Solution**  
I have illustrated one of Budapest's most spectacular building - the Fisherman's Bastion - with elements of mechanical drawings. Furthermore, on the other side I have altered Hungarian traditional folk motifs in to these mechanical drawings as well.

## Budapest, Hungary

Fisherman's Bastion and Hungarian traditional folk motif illustrations like mechanical drawings.

Describe why you have chosen this place as a visual? What story does your design tell?

There are a lot of nice places in Budapest, but in my opinion this place is the best! It's on the top of a little hill and you can see whole Budapest from there (e.g.: Parliament, Buda Castle, the Danube and also the Liberty Statue)! For some time pass I have been making illustrations with editing mechanical drawings. At this design I think somehow it supplements, matches with the embroidered Hungarian folk patterns.

To be featured on social media as the Victorinox "Pick of the Day", please write a short statement about yourself (see more details in the brief).

Hi :) My name is Anna Prakfalvi and I'm 22 years old. I live in Budapest, Hungary. I have finished school just a few days ago, I have studied visual representation. The reason that I have made this mechanical drawing lookalike design for Victorinox is that for some time pass I have been making illustrations with editing mechanical drawings. At this design I think somehow it supplements, matches with the embroidered Hungarian folk patterns. Hope you like it!
