

Create your own tradition

1/4 Vibes

Follow your beat, create your own vibe!

Solution

The concept is inspired by vibes created by the dynamic sound of music. Champagne is traditionally in events that are accompanied by friends and good music. This design is inspired by the experience, memories and vibes that surround the glamorous way of drinking champagne! Let champagne be the tradition to experiencing new vibes.

Follow your beat, create your own vibe!

More Perspectives or Details

Here is a close-up of what the product could look like on the store shelves. The dynamic design is elegant and eye-catching and will certainly attract the customer's interest.

Follow your beat, create your own vibe!

Colour or Design Variations

I've also created a red version variation for the concept. The red gives a very sensual and festive vibe to the design
