

Create your own tradition

1/4 Don't see only with your eyes ... use your heart instead

The reality can be different so create your own tradition, see with your heart

Solution

Many times we perceive things exactly as we see them and we are not looking what is inside or behind them. The result is that in our daily routine we take seriously some situations or we don't get deep in, but life is wonderful and we should seize it. That is why we should see things from many angles because only then will make our life sparkle! So we should not see only with your eyes but to use our heart instead.
