

1/2 Lokum(Turkish Deligh)

Turkish Delight is one of our favourite delicious desserts, reminding us to be happy.

Solution

Hi! I am Ezgi. I live in Turkey. I chose turkish delight because they are really delicious fragrant cubes of jelly originated in Turkey.

We generally serve that dessert to our guests to conduce to a happy conversation. They are made of different ingredients like varieties of fruit juices or flower water and heavily dusted with icing sugar I tried to show it in front of the product, also some nuts can be added.

I think everyone that likes dessert should taste and see all over the world
