

1/2 **Lemon Love**

Lemons with leaves

Solution

Hi! My name is Sema and I am 28. I live in Izmir/Turkey. The inspiration for this work is coming from lemon because it is a food that I always consume pleasantly as a Mediterranean. I described the shape of lemon in a geometric and abstract manner. Unit pattern is used to describe both the lemon and also the leaves. The colors that lemon has in its life cycle are also a source of inspiration for me.
