Doughnuts are one of my favorite food items in the world!

### Solution

Hello i'm Ekin. I am a graphic designer in Izmir.

I'm very much enthusiastic about the funniest kind of all desserts, this colorful, sweet round-shaped cute food, as known as doughnuts, ever since i had them on my first trip abroad. I'm especially passionate about the taste of raspberry flavored ones which i had on my USA trip, i cant forget the taste of those as well as the pink&purple icing. So in this project i'm influenced by those ones' joyful and delicious taste and look.
