

## 1/2 skateboarding

land on both feet

### Solution

I am Hristina , architect from Serbia.

"I was skating with friends in my neighborhood, and then eventually I was invited to go to the skate park with one of them. When I saw people flying all around - literally flying in and out of bowls - that is when I knew I wanted to do it. I wanted to figure out how I could get there and how I could fly." Tony Hawk (skateboarder)
