Everything has a beginning that we always try to find, Bachué is the beginning, she is our mother.

Solution

Hello, my name is David, can call me Matacho, I am a designer and visual creator from Colombia, I have spent years creating my graphic style, unique and unrepeatabe that I have called Neo-PreColombian, in honor of my indigenous latin roots from where the Bachué proposal arises, which in Chibcha language means mother, a whole compendium of graphics that emerges from indigenous pictograms and refers to the creation of humanity, the beginning.

Proposal developed with 15 color variations.
