

1/5 Terrazzo design

Not only for pavements :)

Solution

Broken into pieces? Sometimes this sounds like a nightmare. But remember, that little pieces create our world. And if we put them together, this elegant and strong terrazzo design is made. So don't be afraid being sometimes broken into pieces.

Please tell us about your design, and about you!

Hello, i´m Natalie an enthusiastic student of graphic design from Prague, Czech Republic. My another job is a dental hygienist, so i was excited to join this Curaprox design contest :). I love to combine some creative field of work with taking care of oral health. In graphic design i like simplicity, combinations of floral and technical illustrations, but on the other hand i create a really colourful drawing sometimes.IG: lesanaloguephotos (mostly photos from analogue camera - also my passion).
