Solution

A single, compact cube of joinery, 8ft 3 x 11ft 2 (2.5m x 3.4m). Prefabricate-able; mass produce-able; in any number of finishes... and when you don't need it in the space anymore: disassemble it and install it somewhere else.

Proposal aims:

1. Specifically tailored to Graham's needs and the apartment.
2. Replicable in an apartment.

CUBE:

The kitchen, bathroom, main sleeping space, office, bikes, wardrobes, general and lockable storage, recycling centre, automatically irrigated planting, and services are all contained within the 3.2m x 2.4m x 2.2m(h) cube of joinery.

Various doors, panels and units open up or pull out to access the facilities tucked
